

I am a very faithful listener to XM radio. It is clearer than the old radio and I can select what I want to hear at any time. We pay for the right to hear what we need or want. Please reject the NAB's petition 04-160 that would eliminate instant traffic and weather on XM.

XM is the greatest thing to happen. I have it in all three of my cars to give me great music, comedy, sports, weather and traffic. I live in Atlanta and the traffic reports are very helpfl. I am also an avid bicycle rider and runner who counts on the up to date weather reports.

Thanks for your time.

Susan L. McIntyre
